

Policy Unit: 5f PHB11

Town Quay

Summary

A significant number of commercial and residential properties have developed within this unit, as well as several quays and marinas situated along the shoreline. There is only a very small section at the eastern boundary that has any discernable beach frontage. The entire stretch of the unit is defended by vertical concrete seawalls. Additionally, the larger marina at the eastern end of the unit is protected by a rock revetment breakwater.

Survey Regime

Survey type	Frequency	Profile spacing/survey extent
<i>Topographic interim profiles</i>	N/A	N/A
